Next Steps

Problem

- Currently lacks funding for long-term stability
- Not familiar with grant application processes

Our Role

- Accumulating past successful strategies for a roadmap
- Optimizing grant writing process as opposed to writing grants

Solution: Outcome Measures & Grant-Writing Tool Kit

- Quantifying method for Forest Academy's impact
- Series of templates to aid in grant writing
- Addresses need for long-term sustainability and success

- **Measuring Outcomes**
 - How will the program affect the kids' progress
 - Community impact
- **Strategic Proposals**
 - Create a pipeline of constant grants (6 grants a year)
 - Organizational/financial focus

Emotion Regulation Checklist (ERC)

Instructions:

Please rate how often this child exhibits the following behaviours or emotional states.

	Rarely or Never	Sometimes	Often	Almost Always
1. Is a cheerful child	1	2	3	4
2. Exhibits wide mood swings (child's emotional states difficult to anticipate because s/he moves quickly from positive to negative moods).	1	2	3	4
3. Responds positively to neutral or friendly overtures by adults. [responds positively to polite or friendly adults]	1	2	3	4
4. Transitions well from one activity to another; does not become anxious, angry, distressed or overly excited when moving from one activity to another.	4	3	2	1
5. Can recover quickly from episodes of upset or distress (for example, does not pout or remain sullen, anxious or sad after emotionally distressing events).	4	3	2	1

Strengths and Difficulties Questionnaire **P or T⁴⁻¹⁰**

For each item, please mark the box for Not True, Somewhat True or Certainly True. It would help us if you answered all items as best you can even if you are not absolutely certain. Please give your answers on the basis of the child's behavior over the last six months or this school year.

Child's name Male/Female

Date of birth.....

	Not True	Somewhat True	Certainly True
Considerate of other people's feelings	☐	☐	☐
Restless, overactive, cannot stay still for long	☐	☐	☐
Often complains of headaches, stomach-aches or sickness	☐	☐	☐
Shares readily with other children, for example toys, treats, pencils	☐	☐	☐
Often loses temper	☐	☐	☐
Rather solitary, prefers to play alone	☐	☐	☐

Manual Scoring

Scoring the Strengths & Difficulties Questionnaire for age 4-17

The 25 items in the SDQ comprise 5 scales of 5 items each. It is usually easiest to score all 5 scales first before working out the total difficulties score. 'Somewhat True' is always scored as 1, but the scoring of 'Not True' and 'Certainly True' varies with the item, as shown below scale by scale. For each of the 5 scales the score can range from 0 to 10 if all items were completed. These scores can be scaled up pro-rata if at least 3 items were completed, e.g. a score of 4 based on 3 completed items can be scaled up to a score of 7 (6.67 rounded up) for 5 items.

Table 1: Scoring symptom scores on the SDQ for 4-17 year olds

	Not True	Somewhat True	Certainly True
Emotional problems scale			
ITEM 3: Often complains of headaches... (I get a lot of headaches...)	0	1	2
ITEM 8: Many worries... (I worry a lot)	0	1	2
ITEM 13: Often unhappy, downhearted... (I am often unhappy...)	0	1	2
ITEM 16: Nervous or clingy in new situations... (I am nervous in new situations...)	0	1	2
ITEM 24: Many fears, easily scared (I have many fears...)	0	1	2
Conduct problems Scale			
ITEM 5: Often has temper tantrums or hot tempers (I get very angry)	0	1	2
ITEM 7: Generally obedient... (I usually do as I am told)	2	1	0
ITEM 12: Often fights with other children... (I fight a lot)	0	1	2
ITEM 18: Often lies or cheats (I am often accused of lying or cheating)	0	1	2
ITEM 22: Steals from home, school or elsewhere (I take things that are not mine)	0	1	2
