OUTLINE

Executive Summary

Consolidating FF data into a single, user-friendly workbook to simplify manual entry.

180Degrees
CONSULTING
— PURDUE —

Problem

- **Data Fragmentation:**
 - Managing many independent Excel sheets for each vertical causing inconsistent tracking.
- **Manual Inefficiency:**
 - Time-consuming entry methods and lack a standardized format across different teams.
- **Limited Oversight:**
 - The absence of a central dashboard makes it difficult for leadership to view progress across all verticals quickly

Team

Impact

Process

Next Steps

Appendix

Executive Summary

Consolidating FF data into a single, user-friendly workbook to simplify manual entry.

Solution

- **Centralized Architecture:**
 - Developed a master Excel workbook with dedicated sub-sheets to house all Food Finders data in one place.
- **User-Centric Design:**
 - Created a simplified layout specifically optimized for faster and easier manual data entry.
- **Standardized Reporting:**
 - Implemented a uniform structure ensuring data clarity and enabling simpler analysis.

BEFORE

- Separate Sheet per Month, per County
- Manual Compilation and Calculation of Totals

NOW

- ✓ 1 Sheet Tracking Monthly Data
- ✓ Visualisations
- ✓ FYTD & KPI Calculates Automatically

Automated Optimization

- FYTD formulas
- Standardised KPIs across tabs
- Eliminates manual calculation
- Reduces Errors

FYTD = IFERROR (SUM(B8:M8), "-")

PROCESS

Root Cause Analysis

Problem: Tracking is fragmented, manual, and inconsistent across FF, limiting efficiency and leadership visibility

Solution: Create one standardized tracking system and dashboard for all verticals

180Degrees
— PURDUE —

Timeline

180Degrees
— PURDUE —

NEXT STEPS

Next Steps

Implementation and Training

- Train team on how to input data and utilize dashboards correctly
- Collect feedback & refine system
- Provide ongoing support and troubleshooting

Next Steps

Integration of Excel Automation

- Automating data input for verticals
 - Main dashboard + All Verticals
- Gaining understanding of if new verticals are clear
 - Increasing feasibility of dashboards to maintain optimization

Tableau Dashboard

- How do the new verticals work
- Implementing and adjusting to ensure clear connections between the two

Project Conclusion

Centralized Dashboard System

Problem

- Fragmented reporting across separate spreadsheets and verticals
- Manual tracking limited consistency and leadership visibility

Solution

- Centralized workbook standardizes monthly data entry across verticals
- FYTD formulas and KPI calculations support dashboard-ready reporting

Impact

- Reduces manual reporting work and calculation errors
- Improves board-level visibility across program verticals
- Creates a scalable foundation for Excel and Tableau dashboards

Standardized Data Entry

Monthly input sheets organized by vertical

Automated Metrics

FYTD formulas and KPI calculations built in
