Executive Summary

University Day of Scouting at Purdue is the nation's largest and has been growing exponentially

PROBLEM

- Generate Profit
- Market the event to individuals based on the target demographics where there is less reach

SOLUTION

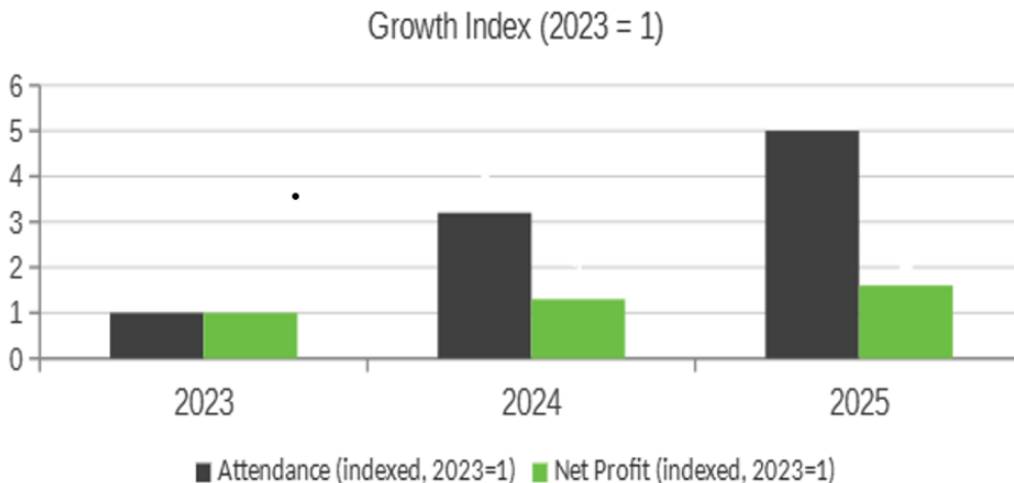

- Reduce Costs
- Tiered Registration
- Targeted marketing
- College and Career Exploration

Financial Problem Overview

Growth without Proportional Return

What does this mean?

- 400% attendance growth since 2023
- Projected net profit is 23K compared to the target of 100k
- 77K is the difference between cost and profit in 2026

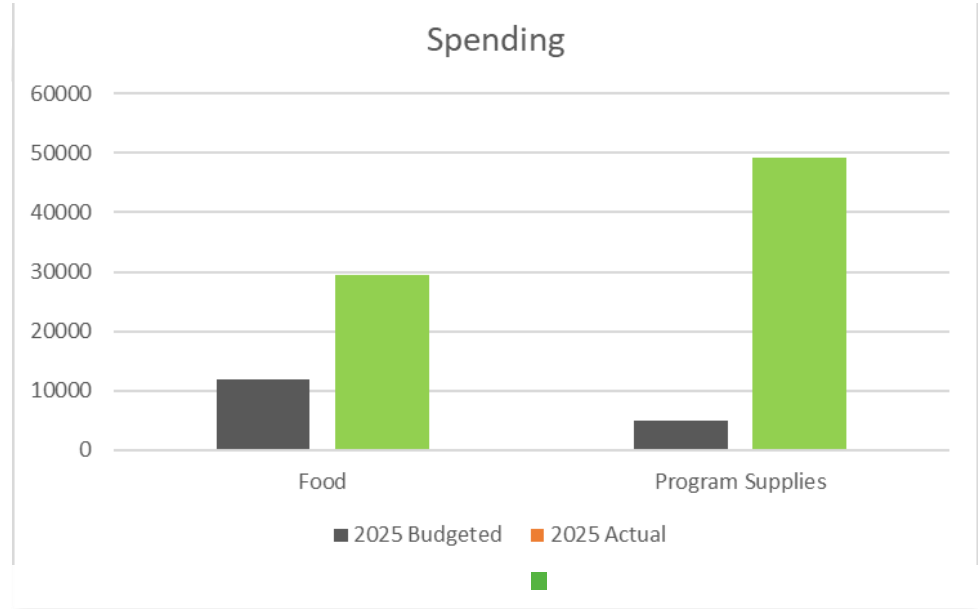

Reducing Costs

Areas of high spending from previous years.

WHAT ARE THE HIGHEST COSTS?

- Food & program supplies are the largest spending categories (\$29,528 and \$49,190 respectively)
- In, 2025 the actual spending surpassed the budget for both
- 2026 budgets reduce these to \$15,400 (Food) and \$10,000 (Supplies)

Reducing Costs

Areas where costs can be reduced

Create structured accounting to understand the reason behind miscellaneous spending

Ensure spending trends are budgeted with attendance increase

Explore other catering options while maintaining quality.
(Potbelly's, Firehouse Subs)

Is buying supplies a sunk cost?
Moving them to a storage unit for around \$80 – 150 per month

Future Ideas to Implement

Introducing varied pricing tiers to generate new revenue streams

Tickets historically have been available in early July, with over 200 ticket sales in the first hour

- Tickets selling out quickly → certain merit badges filling up quickly
- Value for customer → guarantees a spot in desired classes
- Tiered pricing introduces additional \$5k in revenue @ no added cost

● Early Access Pricing:

- Tickets go live in Week 1 - June
- \$70 per attendee: \$50 regular + \$20 for early access to classes
- Make 250 tickets available

● Regular Pricing:

- Tickets go live in Week 1 - July
- \$50 per attendee
- Make remaining tickets available

Marketing and Enrollment Overview

Increasing the number of scouts and leaders at Purdue University Day of Scouting

01 Council Enrollment

- Increasing enrollment through targeted council recruitment
- Comparing enrollment makeup with council sizes

02 Age Demographics

- Implementing strategies based on age and interest
- Age as a factor for merit badge interest

Council Enrollment

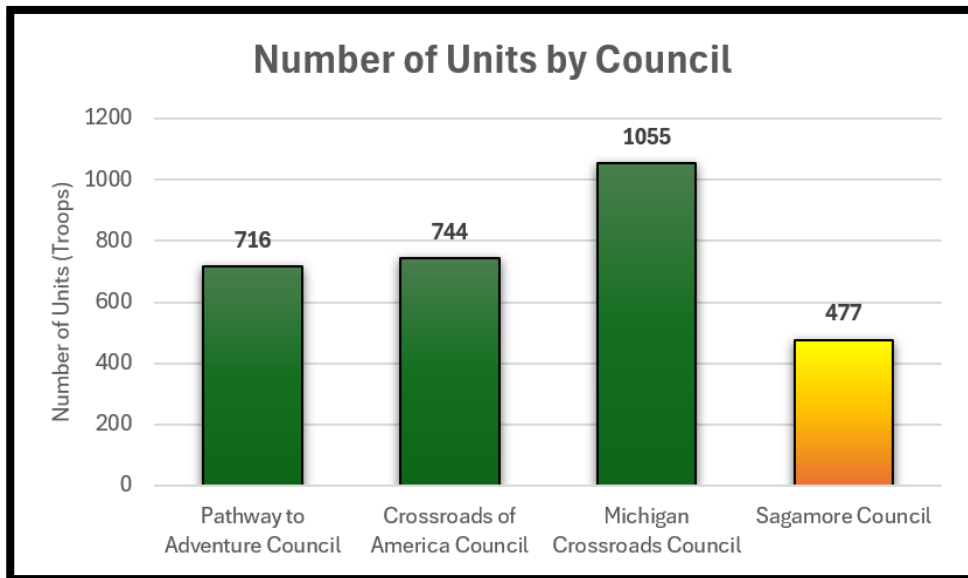

Increasing enrollment through council market sizing strategy

01 Council Sizes by Number of Units

- Estimating council sizes using the number of troops as a metric
- Three of the top 25 councils by unit size and proximity

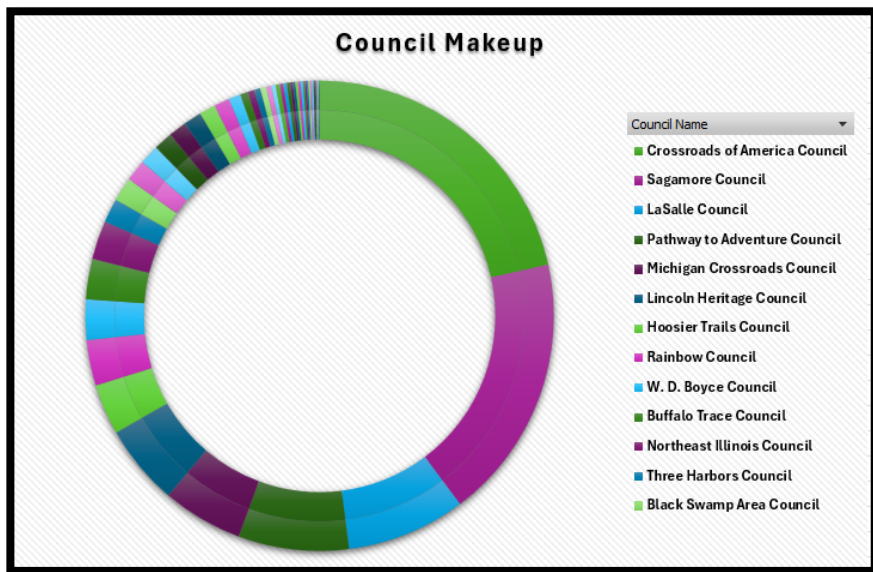

02 Enrollment Breakdown by Council

- Comparing estimated council size to percent enrollment

Council Enrollment

Increasing enrollment through council market sizing strategy

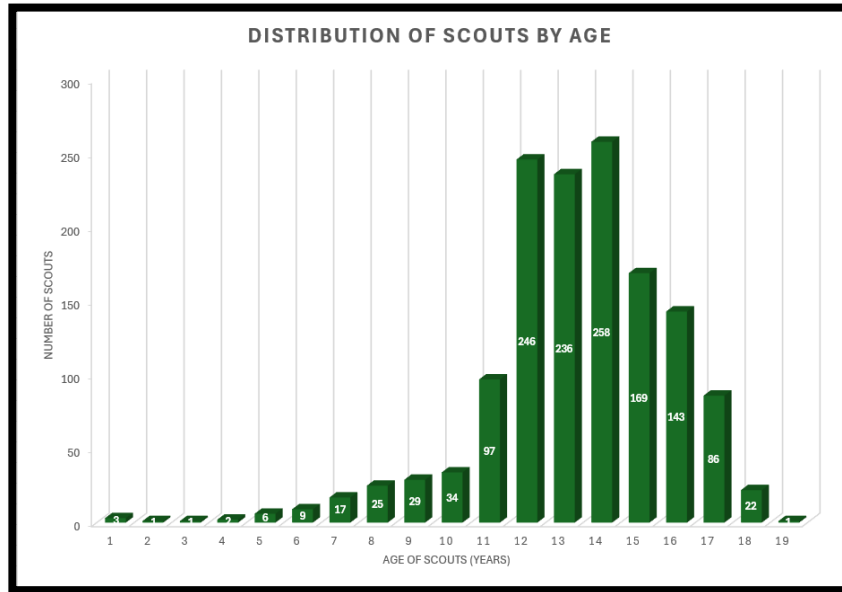

Takeaways

- 01 Crossroads of America is the largest represented council
- 02 Two of the largest councils in the U.S. by proximity have lower representation
- 03 There may not be enough recruitment within sagamore council

Age Demographics

Increasing the number of scouts and leaders at Purdue University Day of Scouting

Takeaways

- 01 Age centered around a mean of 13.3 years old
- 02 Older scouts may be a target for increased enrollment

University of Scouting x College/Career Exploration

Positioning the event as an opportunity for high school scouts to earn merit badges while exploring future academic and career pathways.

Rational:

- Younger scouts → complete merit badges.
- Older scouts → considering future academic and career pathways.
- Dedicated track → high school scouts can complete a merit badge and participate in college and career exploration experiences.

New Track:

- Students can participate in a split-day experience consisting of:
 - A half -day merit badge session
 - A half-day college/career exploration experience

Through:

- Exploration opportunities such as:
 - Student organization showcases
 - Campus tours led by PSEF
 - Purdue student ambassadors
 - Career oriented merit badges

Target:

- Older Scouts (14+)

Risks and Mitigations

Identifying potential challenges in implementing our proposals and strategies to minimize their impact

Area	Risks	Mitigations
Purdue Student Organizations	Volunteer groups may have inconsistent availability or cancel late because of exams, class schedules, or competing club commitments.	Confirm participation early, require a designated student-org lead, and keep backup volunteers or substitute groups for high-priority sessions.
Event Rebranding	A new “leadership summit” message could confuse current scouting families and make them think the event is no longer centered on merit badges.	Create separate intro tracks for non-scouts, cap those seats, and preserve priority badge access for registered scouts.
Non-Scout Outreach	School partnerships and guest attendees could overcrowd classes or dilute the experience for scouts if capacity is not controlled.	Keep all core badge access equitable; reserve premium add-ons for convenience items such as merch, early check-in, or optional tours.

Thank You!

Appendix

Drive with resources: https://drive.google.com/drive/folders/1s6yxKy7oTikl0sBU0ptqsDNjgzAEhXcp?usp=share_link

Finances:

1700 people, \$29,000 spent: around \$17 per person.

Potbelly's: around \$13 per meal, saving around $(29000 - 22100 = \$6900 \text{ saved})$

Firehouse: similar to Potbelly's

Storage units: <https://www.rentcafe.com/storage-units/us/in/lafayette/>

Jimmy John's does not do unsolicited grant requests

Accounting:

Make miscellaneous expenses more detailed, i.e. spent on what type of products, what kind of costs are they, etc.
