Postivie World Impact

Purdue Pickleball Club

- Grew from 10 to 2,900+ members, the largest wellbeing club on campus
- Awarded Club Sport Leader of the Year (1 of 3,500)

Electrum Ventures - COO

- Managed all P&L, grew revenue from \$6K to \$11K/month
- Eliminated \$40K inherited debt, led a profitable exit

180 Degrees Consulting

- Founded branch, scaled to 62 members completing 8 projects
- Hosted case competition sponsored by a nonprofit, engaging 112 students

RSM - Consultant

- Designed NetSuite MRP module 0-1
- Reduced raw material delivery time by 10%
- Ranked 1st of 35 in capstone challenge

Career Journey

Why Me

Procurement

- Designed NetSuite MRP module from zero at RSM for a fintech client
- Reduced end-to-end procurement delivery time by 10% via workflow redesign
- Helped optimize vendor selection on an \$8M facility plan, saving \$720K

Analytical & Data Driven

- Uncovered \$20M in client opportunities through quantitative data analysis at RSM
- Deployed Power BI for a nonprofit, reducing manual reporting by 30%
- Built SQL-driven reporting systems to track global supplier fulfillment

Adaptable & Always Learning

- Stepped into COO role with \$40K in inherited debt and no playbook — stabilized and led a profitable exit
- Founded a consulting branch with no infrastructure, scaled to 62 members in under a year

30 Days - Learn and Connect

- Schedule 1:1 meetings with immediate team members, cross-functional partners, and key stakeholders to understand team dynamics and communication styles.
- Shadow 2-3 active projects or product cycles to learn the internal delivery methodology, tooling, and decision-making frameworks.

60 Days - Contribute & Deliver

- Take full responsibility for a specific project phase, such as a competitive market analysis, a product feature specification, or a data-driven spend analysis.
- Identify and execute one "low-hanging fruit" improvement in a process or product feature to demonstrate immediate value

90 Days - Drive Outcomes

- Take the lead on a major strategic initiative or product launch from conception through delivery.
- Define and achieve specific KPIs, such as documented cost savings, increased user engagement or improved conversion rates.
- Apply feedback from the first 60 days to sharpen delivery and close skill gaps fast
